NUMBER 72.

## NEW CABINET OFFICER

George B. Cortelyou to Be Secretary of Commerce and Labor.

PRESIDENT HAS NOMINATED HIM.

Conference Provided For Between Gold and Silver Standard Countries—Proceedings of the National Legislature.

Washington, Feb. 16. — The president sent the following nomination to the senate: George B. Cortelyou, of New York, to be secretary of commerce and labor.

James R. Garfield, of Ohio, will be appointed by the president to be commissioner of corporations in the new department of commerce. The appointment probably will go to the senate.

GEORGE B. CORTELYOU.

Mr. Garfield is now a member of the Civil Service commission.

Soon after the senate met Mr. Quay offered a resolution, which went over under the rule, declaring it to be the sense of the senate that a date and hour prior to the 2d of March should be fixed for a final vote upon the statehood bill. A resolution was agreed to calling on the president for information regarding the present status of the Isle of Pines and what government is exercising authority and control in said island. Mr. Lodge then called up the Philippine currency bill. The amendment offered by Mr. Patterson (Colo.) some days ago and published at the time, providing for a conference between gold and silver standard countries to fix a commercial exchange, was agreed to without division.

Mr. Dubois (Idaho) offered a substitute for the entire bill and briefly explained its features. The substitute was rejected and the bill then passed. It is the measure recommended by the house committee on insular affairs, but which was rejected by the house. The senate committee on Philippines substituted for the house bill the bill of both committees and which has been recommended by Secretary Root and Governor Taft. Consideration of the Indian appropriation bill was then resumed.

The Indian appropriation bill was passed after some debate.

In the House.

Washington, Feb. 16. — This being committee suspension day in the house, Mr. Wanger (Penn.) then moved the passage, under suspension of the rules, of the senate bill to amend the act of March 2, 1893, to compel common carriers to equip their cars with automatic couplers, etc. Mr. Wanger explained that the bill would compel the railroads to equip with couplers tenders which had been held not to be cars, and would also require a more general use of air brakes.

The bill was passed. Mr. Dalzell (Penn.), from the committee on rules, then reported a special order to give the Fowler currency bill the same privilege accorded bills reported from committees having leave to report at any time.

After some remarks by Mr. Underwood (Ala.) and Mr. Robinson (Ind.) against the principle of asset currency, the vote was taken by ayes and noes. The rule was adopted, 128 to 92.

Dock Laborers Strike.

Bremen, Feb. 16.—About 1,500 dock laborers employed by one of the contractors of the North German Lloyd company struck work, owing to the dismissal of a comrade. Thus far, however, the other contractors have been able to carry on the loading of the company's steamers.

West Superior, Wis., Feb. 16.—This was the coldest day of the winter, the mercury recording 23 below. The temperature was made more severe by a brisk wind.

Go hear Miss Yancy and little Frances D. Geisel recite at the Episcopal social to-night. Admission and refreshments 25 cents.

The State encampment of the Grand Army of the Republic, Department of Kentucky, will be held in Louisville, May 19th and 20th.

Sunday's Courier-Journal had a handsome half-tone of Miss Willie Watson, who was recently a guest of Mrs. Graham Vreeland, of Louisville.

George Yarnall and James Sullivan were tried in the Circuit Court Monday on a charge of housebreaking. The jury were unable to agree, standing ten to two for acquittal.

Sunday, February 15th, the venerable mother of Mr. F. C. Petry celebrated her eighty-fifth birthday anniversary. Her family circle met together to wish her many glad returns of the day.

The attendance at the Y. M. C. A. jubilee convention at Lexington was 520. State Secretary Rosevear says it was the largest State convention ever held in Kentucky and the largest ever held in the South.

Auditor's Agent Watson has filed an agreed settlement with the executors of J. W. Foxworthy for taxes on \$1,100 personally omitted from assessment for years 1901-02. County tax \$14.13, penalty \$2.82, Clerk's fee \$3.

Chief of Police Donovan returned from Cincinnati last evening with Henry Lightfoot, who killed Charles Duncan two weeks ago. Lightfoot was arrested Saturday night in the Queen City. He acknowledges he killed Duncan.

Mr. Oliver G. Layton, whose death was mentioned briefly Monday, was born near Mt. Gilead, and was about seventy years of age. His death was the result of Bright's disease and paralysis. His wife, who was a Miss Peck, died about two years ago. Four sons and two daughters survive this couple, among them John, of Helena, and Thomas, at whose home in the West End the death of Mr. Layton occurred. Mr. Layton had a brother, the late Perry Layton, of Lewis County, who did successful work as a minister of the Christian Church, and a nephew of deceased is at present a missionary of the same church in Africa.

## TWO-THIRDS VOTE.

Ruling of Court of Appeals on Question of Issuing Bonds.

The Board of Education of Lexington adopted a resolution providing that a proposition be submitted to the voters of the city authorizing the issue of \$75,000 of bonds for the purpose of building three additional school houses. The proposition was submitted to the voters at the November election, 1902, and resulted in 1,621 yeas and 437 nays. At the same general election there was cast for a member of Congress by the city of Lexington 3,769 votes.

Suit was filed to enjoin the issue of the bonds on the ground that two-thirds of the vote cast at said election was not cast in favor of said proposition.

Held by the Court of Appeals—That only two-thirds of those voting on the question was necessary to give authority for the issue of the bonds.

## FOR STREET IMPROVEMENT.

Committee Appointed by Mayor Stallcup to Take Up the Matter—All Interests Represented.

At the regular session of the City Council the first of this month Mayor Stallcup was authorized to appoint a committee composed of members of Council and other citizens to take up the question of street improvements.

The Mayor and City Attorney, under the motion, were to be members of the committee.

At a called meeting of the Council last evening, the Mayor announced the committee as follows:

From Council and City Officials—First ward, R. R. Frost; Second, George M. Clinger; Third, John W. Eltel; Fourth, John Short; Fifth, John E. Wells; Sixth, M. C. Hutcheson; W. E. Stallcup, Mayor; Thomas A. Keith, Chairman Committee on Ways and Means, and City Attorney Thomas M. Wood.

From the Banks—Samuel M. Hall, J. F. Barbour, Dr. John A. Reed, W. W. Ball. The Press—Thomas A. Davis and M. F. Marsh. Citizens at Large—First ward, Chas. D. Pearce; Second ward, Dr. Pickett; Third ward, John M. Hunt; Fourth ward, H. L. Newell; Fifth ward, A. C. Sphar; Sixth ward, Wm. D. Cochran.

On motion the contract with Auditor's Agent Watson for collection of back taxes was rescinded, and the question as to his claim for commission on what he had collected was referred to a committee.

## UNCLE SAM'S CLAIMS.

Protocol to Be Drafted Providing For Settlement by Venezuela.

DOCUMENT CREATES A COMMISSION.

One Member to Be Appointed by President Roosevelt, the Other by President Castro—Claims of the Other Nations.

Washington, Feb. 16.—Preparations were begun at a conference between Mr. Penfield, of the state department, and Mr. Bowen for the signing of a protocol providing for the settlement of the claims of the United States against Venezuela, it being the desire of Venezuela that the United States' agreement shall be drawn up first. The protocol will be quite brief, consisting perhaps of three or four articles. It will provide for the appointment of a commission, one member to be appointed by President Roosevelt and the other by President Castro, to pass upon the American claims, and in the event of a disagreement the King of Spain is to appoint the umpire. Unlike the protocols of the allies, it is expected that the United States agreement will provide for the appointment of this commission within a certain period.

For the satisfaction of these claims, the protocol will stipulate that 30 per cent. of the customs receipts of the two ports of La Guayra and Porto Cabella shall be set aside, to be held in trust until The Hague tribunal shall decide in what way this amount is to be distributed among the creditor nations. When the United States protocol is signed Mr. Bowen will call in turn on the representatives of the other creditor nations, namely, the French Ambassador, the Mexican Ambassador, the Danish, Holland, Belgian and Spanish ministers and the charge d'affaires of the legation of Norway and Sweden and proceed to draw up separate protocols with each, which shall conform, in all essential details, to that of the United States.

## Venezuelans Pleased.

La Guayra, Feb. 16.—The raising of the blockade precipitated demonstrations of joy at the affected ports and at Caracas, the capital. President Castro sent a cablegram to Minister Bowen, felicitating him as the "great and good friend of Venezuela." The government, immediately on receiving the news that the blockade had been raised, took military measures and sent troops in all directions to crush the revolution, without giving the rebels a moment's respite.

## EIGHT PERSONS KILLED.

Terrific Explosion in an Ohio Magazine Cane Factory.

Fostoria, O., Feb. 16.—Eight persons were killed and four injured by an explosion in the Peter & Fox magazine cane factory. The dead: Joseph Burdge, John Hazen, — Purnell (boy), one unknown girl, James Green, Elva Spence and two Murphy girls, aged 16 and 18. Four persons were injured. The magazine contained a large supply of high explosives used in the manufacture of caps for magazine canes. It will never be known how it happened that some of the explosive let go. There was a terrific report that shocked the whole town, and in a moment the whole factory was in flames. The factory was destroyed, \$5,000.

## Editor Clark Dead.

New York, Feb. 16.—Edwin S. Clark, who was for 18 years a member of the editorial staff of the New York Evening Post, died at his home in Brooklyn. He was born at Huntington, Mass., in 1847. His first newspaper work was done in the office of the Springfield Republican. Later he served under Colonel McClure, of the Philadelphia Times; was Washington correspondent of the Philadelphia Press, and went to Milwaukee, where he accepted a position on the Sentinel. In 1882 he came to New York, and in 1885 he began his work for the Evening Post. He was a close student of American political history and had a minute acquaintance with the politics of the day.

## Alleged Murderer Arrested.

Philadelphia, Feb. 16.—George Nelk, the young man of Germantown, a suburb, who is accused of killing his mother and murderously assaulting his sister last Wednesday, was arrested in Reading. Nelk disappeared after the crime had been committed and a search was made for him.

Columbus, O., Feb. 16.—General Leonard Wood and other army officials are here inspecting proffered sites for the proposed new army post. The present garrison is within the city limits and will be sold.

## "Winchester."

"Winchester," a popular war play, with Miss Margaret May as Virginia Randolph, the Southern beauty, will be the attraction at Washington Opera House Wednesday evening. The supporting company is a strong one and has many new and sensational effects. Miss May's famous jumping horse "Mazeppa" will be used during the action of the piece. This effect has been conceded by all the critics to be the most realistic and electrifying stage illusion ever presented. Seats now on sale at Nelson's on Market. We personally guarantee this to be one of the best war dramas ever seen here, and the company first-class in every respect and deserving of a big house.

RUSSELL, DYE AND FRANK,

Managers Washington Opera House.

Sunday's Enquirer says: "The announcement is made by President Gibbs, of the Business Men's Club, that fully 100 of the members will attend the excursion to the Mayesville Tobacco Fair, which takes place next Saturday. The club will take its own band along, leaving at noon, returning about 6 p. m."

## HERE AND THERE.

Items of Interest From Nearby Towns and Villages Contributed by the Bulletin's Corps of Correspondents.

GERMANTOWN, Feb. 16th.—George Henson is moving to the farm of Henry Dickson. We regret very much to lose Mr. Henson and his good wife. May he prosper as never before.

We can have no more sunshiny Sundays, it seems.

John Dickson's family was increased by the arrival of an eleven-pound boy on Tuesday last. Henry Boyd, of Tollesboro, was here last week the guest of his aunts, Mrs. A. Williams and Mrs. E. W. Bell.

B. M. Kirkland visited his daughter, Mrs. Jas. Bell, last week.

Miss Hattie Broshears, of Middlesboro, is the guest of friends here.

Miss Bessie Cassiday, of LaGrange, is a charming visitor at the home of Misses Sudie and Minnie Norris.

T. H. Bell was in Cincinnati last week on business for the new lodge I. O. R. M. just instituted here.

Mr. Cline O'Neill and Attorney Hennessey, of Augusta, were guests at the Erwin home on Saturday evening and attended the play at the opera hall.

Earl Henderson visited his parents here last week. He is now in Fremont, O.

Jas. Bell was in the city on business last week.

The Germantown Dramatic Company will play "The Lone Tree Mine," which was rendered here a week ago, at Mt. Olivet the 19th.

Miss Jennie Cribfield will go to the city Wednesday for the millinery opening. She will be gone two weeks.

The Pythian Dramatic Company rendered "Hazel Adams" Friday night to a well filled house. They were asked to play again this week, but circumstances were not favorable and they declined the invitation. On Saturday evening "Tags, the Wolf," was played. The house was well filled and every one seemed to enjoy the performance from beginning to end. Each character was indeed a true representation of real life. Music was good. By some of the best judges of drama and comedy, it was said to be the best ever shown on our stage.

## IN A BLIZZARD'S GRIP.

Snow, Sleet and Intense Cold Hold Sway in the Northern States.

SOUTH AND SOUTHWEST ALSO HIT.

Livestock Perishing on the Western Plains and Traffic Demoralized Everywhere—Mercury Well Below Zero at Many Points.

Chicago, Feb. 16.—Seven inches of snow on the level, accompanied by a gale reaching a velocity of more than 40 miles an hour, ushered in a cold wave, which sent the mercury to the zero mark. The traction and steam railway service of the city, telegraph and telephone wires are all suffering from the heavy fall of snow. Loss of life attending the storm, however, was less than anticipated, but one person, so far as known, having succumbed. An unidentified man was found frozen in a snow drift in the downtown district. The cold rapidly increased. Fair weather is in prospect, with brisk north winds.

Reports received here show an extensive cold wave covering the west from Texas to Lake Superior and extending into the Rocky mountains. Williston, N. D., with a record of 42 below, is distinguished as the coldest spot in the country. Throughout the country affected trains are reported delayed.

## Sheep Perishing.

Rawlins, Wyo., Feb. 16.—The loss of sheep on the Red Desert, where 500,000 graze, will be heavy as the result of the intense cold. The weather is now moderating, but the continuation of the storm for six or seven days has weakened the sheep until deaths are of hourly occurrence. The weather is the coldest which has been experienced for many years. At Medicine Bow, in the center of the vast sheep-grazing country, the temperature was from 28 to 32 degrees below zero for four nights. In the Encampment country it has fallen to 40 below, and all mining operations have ceased. The fall of snow in the mountains averages from 20 to 60 feet, and many small mining camps will be snowbound for weeks.

## Sleet in New York.

New York, Feb. 16.—In the midst of a pyrotechnic display, like a searchlight gone mad, those abroad in New York after nightfall struggled over icy pavements or slipped in a slushy substance, which gave way at the slightest touch of the shoe. It was a day of contrasts in the weather under foot. Ice and water made it a miserable one for those who walked and for the horses which drew vehicles over the slippery asphalt. For those who sought elevated trains it meant a slow ride over a structure which was continually illuminated with erratic flashes of light, almost like a searchlight, which was sent in every possible direction.

## All Trains Late.

Kansas City, Feb. 16.—The local weather reported the following temperatures: Kansas City, 6 below; Springfield, Mo., 2 above and falling; Wichita, 6 below; Topeka, 9 below; Concordia, 12 below; Dodge City, 16 below. The atmosphere in this part of the southwest is clear, with prospects of a further fall in temperature. The ground is covered with nine inches of snow on the level, while in railroad cuts a strong north wind has piled the drifts high. All the trains in and out of Kansas City are late.

## Sleet in the South.

Memphis, Tenn., Feb. 16.—One of the worst sleet storms in years set in at an early hour. Trains are from five to ten hours late in all directions. Street car traffic in this city is practically at a standstill, and the telegraph and telephone companies are seriously handicapped. Reports from Mississippi, Arkansas, Oklahoma territory and Texas state that the storm is general. The railroads are badly crippled, and many trains have been annulled.

## Flood Anticipated.

Pittsburg, Feb. 16.—The Monongahela and Allegheny rivers are rising rapidly at the headwaters, and Pittsburg is threatened with another floor, notwithstanding zero weather. Warnings have been sent to all towns in the Monongahela valley and to firms having plants along the river fronts to prepare for 22 feet, the danger line, and perhaps a higher stage. The flood threatens to make the river situation worse than has been experienced here this winter.

## Letter Carriers Suspended.

San Francisco, Feb. 16.—Seventeen letter carriers have been suspended from the San Francisco postoffice for alleged political activity during the November campaign.

## **A GREAT MENACE TO REPUBLICAN INSTITUTIONS.**

Judge Peter S. Grosscup, of the United States Circuit Court of Chicago, and Dean of the Northwestern University Law School, lectured before the University of Michigan Good Government Club Saturday night on the subject of the "New Nation." His address should be read by every true patriot, for it points out in forceful words the danger that threatens our country from the great combinations of wealth commonly known as trusts. The fact that Judge Grosscup occupies such a high place on the Federal bench lends additional force to his words. He spoke in part as follows:

"In the very nature of things, we must expect that men who do not see their way clear to an improvement of their conditions under the old forms of industrial liberty, will entertain sympathy for a system that promises something new. The separation of labor from proprietorship—the separate mobilization of these two forces as enemies, instead of their comingling in common interest—is the most un-Republican and menacing fact that now confronts the American people.

"The consolidation idea has, thus far, accentuated this menace. It has done what is still more menacing—in narrowing the personnel of the proprietorship of the country, it is detaching from the friends of property, the great liberal body of citizenship. However we may wish it, this old-time conservative force will not, thus isolated, remain stationary. It will swing, in time, to those whose attitude is already opposed to the institution of property, and in this movement the world will give to socialism allies that would make socialism invincible. Could the old ideals stand up against an alliance such as that? Will the great body of the people, excluded from participation in the property of the country, remain loyal to the order to which property must look for its bulwark? Can we expect a bystander to have the interest of one who has a stake in events? Can we invoke the name of America in an order of events that in their practical outcome are essentially unamerican and un-republican?

"Our first duty is to wake up to the realities of the situation; and our next to put the forces of industrial freedom in order. Not until we have done these—not until the time when the property-acquiring instinct of the country is again unified upon a basis fair alike to all—can we rest assured that the outcome of this encounter need be no longer feared.

"But what is such a fair basis? What changes can we make in the corporate policy that will lead to the peopleization of the proprietorship of the country? Will the people under any conditions, to any large extent, enter the field of corporate ownership? These are practical inquiries that rise naturally to the mind.

"For my own part, I believe that once corporate organization and management is cleared of thimble-rigging and pitfalls, so that the fortunes of enterprise will be bound up, not in an overstrained organization, but solely in the vicissitudes of the business itself, the American people will be found ready to take up again their share in the proprietorship of the country.

"The measures pending in Congress make no change in the basis of corporate organization; nor do they provide for visitation. They exhibit no purpose—at least, no controlling purpose—to widen the proprietorship of the country; the publicity proposed is confined to the gathering and publication of statistics, valuable possibly to the speculator or the trained investor, but ineffective and worthless to the ordinary man who may be seeking ownership. What chiefly is needed—the intervention of Government as trustee, not as mere news-gatherer; a guaranty that when a corporation is created its creator has seen to it that it is fairly organized, not mere statistics of haphazard corporate organization, that the people cannot comprehend—is absent from the bill. In short, the measures pending miss sight of the prime mischief to be remedied, and thus running astray miss the remedies to be adopted.

"But though we cannot expect adequate legislation now it will come. The public mind is forming. Unless I am greatly deceived the mad-dog policy of treating corporations proposed by some will be rejected; the American people will not in blind fury pull down about them the industrial edifice. But any policy calculated to merely temporize will, with equal conclusiveness, be rejected; there will be no room when the public mind is made up for the diversions of the political masquerade.

"And the public mind will in the end be made up. The people of the United States will, in time, come face to face with the full significance of the situation on which they are entering. Side issues that now obscure will then clear up, and eor-did interests that now obstruct will be brushed aside, and it will be made plain that, but for some far reaching reconstruction of our corporate policy, we are on our way either to socialism or to a form of government no longer Republican. There will come about a determined public will to set our house in order, to re-establish, on the secure foundations of popular proprietorship and industrial liberty, the property interests of the Republic; to restore those ideals, into the depths of whose firmament the people of America have always looked, and look now, for lights to guide them on their course."

# **Useful Information!**

Housekeepers are often annoyed by stains on table linen. As a souvenir of this linen sale we present them with the following dependable list of "First aid to the Injured:"

For peach stains use a weak solution of chloride of lime. Linens must soak for a long time. This is necessary and important.

For fresh tea or coffee stains use boiling water poured on the spots over some vessel. Hold the hot water at a height sufficient to secure force while pouring. In old stains soak in cold water before boiling.

Grass stains can be removed by using cream of tartar and water or alcohol, which never stains the most delicate fabric.

For mildew use lemon juice and expose to the sun. If old, dissolve one tablespoonful of chloride of lime in four quarts of cold water and soak the fabric till the mildew disappears. Rinse thoroughly to avoid any chemical action on the linen.

For wine stains sprinkle with salt, moisten with hot water and pour boiling water through until the stains disappear.

For blood stains use cold water first, then soap and water. Do not use hot water, as it sets the stains.

For fruit stains use boiling water. If they do not yield, use oxalic acid, allowing three ounces of the crystal to one pint of water. Wet the stained linen with the solution and place it over a kettle of hot water or in the sunshine. Rinse well as soon as the stains disappear; wet with ammonia to counteract the acid. Then rinse thoroughly again. This operation will save the linen, which would otherwise be injured.

## **Grocery Store Philosophy**

"A grocery store is a good place to study human nature—

"A good many people who come in here seem to buy things just because they've been in the habit of it."

"Some of them seem to forget that the world is growing—that things are being made better for them every day."

"Take soda crackers for instance—

They use to come loose altogether—

and we always sold 'em in paper bags.

Now they're mostly sold in airtight packages."

"The change came with **Uneeda Biscuit** in the In-er-seal Package with red and white seal.

I tell you that was a great idea—making a soda cracker as good as it could be and putting it in a sealed package to keep out the dust and store smells—to keep them from being broken and wasted besides keeping them fresh. And think of the price—five cents."

"It's a wonder to me people don't live on **Uneeda Biscuit**—some of them do—yet it's a fact that a few still buy loose crackers—One of my clerks says it's 'the bag habit' and I guess he's right."

### **WORST IN YEARS**

Was the Storm That Swept Over the Ohio Valley Sunday and Monday.

The storm that struck this section Saturday night and raged almost without intermission until late last night, was the severest in many years.

The rainfall Saturday night and up to Monday morning was very heavy, amounting to 2.52 inches. Monday morning it turned first to sleet and later to snow, and the snow storm proved as severe as the rain. It continued until late last night. The snow fall amounted to almost six inches, the melted snow showing five and six-tenths inches (.56 of water). It is badly drifted in places, and served as a fine protection for the wheat last night.

The Weather Bureau sent out a bulletin from Washington City Sunday evening giving warning of Monday's cold wave. It stated that the temperature would fall Monday, going close to zero by Tuesday morning. The local observer reports a temperature of one degree below zero this morning. At 7 a. m. the mercury stood just at zero.

The type-written record in the Marshall will case makes over 1,700 pages, legal cap.

## **GEORGE H. FRANK & CO.**

Mr. Walter B. Phister, formerly of this city, has been appointed Chicago manager for the Travelers' Insurance Company—a \$12,000 a year position. The Chicago Journal says his appointment is "an indication that the managers of the company in the east wanted a man closer to the State insurance department pending the decision of a case involving the right of the company to do business in Illinois. Phister has been in the same line of business with another casualty company. The case before the State insurance department is now in controversy, but the companies are represented by some of the big legal lights of the State."

At a meeting of the Board of Trustees of the Confederate Home, the Hon. W. O. Coleman, of Sulphur, Ky., was chosen Superintendent to succeed Captain S. H. Ford, resigned. He will assume the duties as soon as possible. Mr. Coleman was a member of the last State Senate. He is a veteran of the Confederate army, having fought in the Fourth Kentucky Cavalry.

Representatives of a Cincinnati company of capitalists have closed a deal with F. P. Blair, of Rowan County, for his oil lease of 1,500 acres of land on Lickfork. The company proposes to sink wells at once. The new company will drill to greater depth than usual, as they believe better results can be obtained.

The Yale Oil Company, in which some Maysville people are interested, completed its fourth well in the Olympia field Thursday. Oil was found at a depth 441 feet and now stands to a depth of 317 feet in the well. The well is about seven miles southeast of Olympia, and is regarded by the company as very promising. Each of the four wells drilled by the company has been on different leases.
